Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species 1 in figures 1-3

Species 2 in figures 4-4b

Species 3 in figure 5

Species 4 in figure 6

Species 5 in figure 7

Species 6 in figures 8-9

Species 7 in figures 10-11

Species 8 in figure 12

Species 9 in figure 13

Species 10 in figures 14-15

Species 11 in figures 16-17

Species 12 in figure 18

Species 13 in figure 19

Species 14 in figure 20

Species 15 in figure 21

Species 16 in figures 22-26

Species 17 in figure 27

Species 18 in figure 28

Species 19 in figure 29

Art Unit: 3731

Species 20 in figure 30

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
